Replacement parts & fabrications for Vibratory & Rotary Process Equipment

CUSTOM FABRICATIONS

When it comes to replacement fabricated parts, GK is your one-stop supplier. From simple brackets to entire shakeout bodies, GK can quickly fabricate any part you need. And since we produce replacement parts off the original drawings, you know it will fit the first time, every time. If you have a non-GK vibratory assembly that needs to be replaced, no problem. GK can fabricate anything you need in our state-of-the-art fabrication facility.

GK fabricated assemblies are available for most popular brands of vibratory equipment...Call today for more information.
