## **FINGER-SCREEN™ 2.0 Vibratory Screen**

### **The revolution has begun...**

Tired of clogged, plugged, and down trommel equipment?

General Kinematics innovative FINGER-SCREEN™ 2.0 Vibratory Screen is THE answer. Able to process more material without trommel inefficiency, capable of handling:

- MSW
- Plastic bags
- Wet organics
- Garden hoses
- Christmas lights
- Concrete
- Car batteries

Vibratory motion evenly spreads material for maximum classification efficiency and each unit is custom designed to meet your specific classification requirements.

**GK FINGER-SCREEN™ 2.0 decks provide maximum durability**
