General Kinematics Corporation

APEX™

VERTEX™

NOMAD™

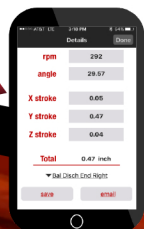

1 Grab & go device to quickly assess machine performance and monitor your vibratory equipment.

2 Preventive Maintenance monitoring device maintenance teams depend on.

3 Track and log your equipment vibration performance via the APEX™ app.

WHY APEX™

- ✗ Quickly diagnose stroke and speed of your equipment.
- ✗ Share your data with GK experts to improve your performance.
- ✗ APEX™ makes reading multiple data points easy. Accessible via the APEX™ app for iPhone or Android.

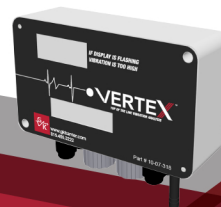

1 Dedicated device to track machine performance 24/7.

2 Real-time alerts to prevent machine failure through advanced warning.

3 Track multiple data points and identify trends.

WHY VERTEX™

- ✗ You're not alone! GK monitors, reviews and calls your maintenance team to respond to alerts.
- ✗ Our trained experts work alongside your team and help optimize equipment performance.
- ✗ Access data via secure USB key or your customized web portal.

1 Need expert advice? GK's experienced service technicians work side by side with your maintenance team.

2 Remove the guesswork! Customized diagnostics programs to optimize uptime.

3 Data is power. Increase productivity and end the cycle of downtime.

WHY NOMAD™

✗ What GK customers are saying...

*"Our maintenance guys love it."
"GK is there when we need help."
"You can't go wrong."*
